Section 4: FIRST AID MEASURES

**Description of Necessary First Aid Measures:**

- **Ingestion:** No specific intervention is indicated as the compound is not likely to be hazardous. Consult a doctor if necessary.
- **Eye contact:** No specific intervention is indicated as the compound is not likely to be hazardous. In case of eye contact immediately flush eye(s) with plenty of water. Consult a doctor if necessary.
- **Skin contact:** The material is not likely to be hazardous by skin contact, but cleansing the skin after use is advisable.
- **Inhalation:** No specific intervention is indicated as the compound is not likely to be hazardous. Consult a doctor if necessary.

**Poisoning Symptoms:** Poisoning symptoms in laboratory animals were non-specific.

**Medical Advice:** There is no specific antidote available. Treat symptomatically.

Section 5: FIRE FIGHTING MEASURES

**Suitable Extinguishing Media:** Use water spray, foam, dry chemical or carbon dioxide. DO NOT use high volume water jet.

**Hazards from Combustion Products:** As the product contains combustible organic components, fire will produce dense black smoke containing hazardous products of combustion (see Section 10). Exposure to decomposition products may be a hazard to health.

**Special Protective Precautions and Equipment for Fire Fighters:** Wear full protective clothing and self-contained breathing apparatus.

**Further Information:** Prevent fire extinguishing water from contaminating surface water or the ground water system. Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. For small fires, if area is heavily exposed to fire and if conditions permit, let fire burn itself out since water may increase the area contaminated. Cool containers / tanks with water spray.
Section 6: ACCIDENTAL RELEASE MEASURES

Emergency Procedures: In case of spillage it is important to take all steps necessary to
- Avoid eye and skin contact
- Avoid contamination of waterways

Methods and Materials for Containment and Clean Up:

Procedure for spill
1. Keep all bystanders away
2. Wear goggles, half face-piece respirator with combined dust and vapour cartridge, full length waterproof clothing and elbow-length PVC gloves
3. Reposition any leaking containers so as to minimise leakage.
4. Dam and absorb spill with an absorbent material (eg sand or soil)
5. Shovel the absorbed material into drums
6. Disposal of the absorbed material will depend upon the extent of the spill
   - For quantities up to 50 L of product bury in a secure landfill site
   - For quantities greater than 50 L seek advice from the manufacturer (use emergency contact number below) before attempting disposal. Contain in a secure location until disposal method is established
7. Decontaminate spill area with detergent and water and rinse with the smallest volume of water practicable

Section 7: HANDLING AND STORAGE

Precautions for Safe Handling: No specific precautions are required.

Conditions for Safe Storage: Store in the closed, original container in a cool, well ventilated area. DO NOT store for prolonged periods in direct sunlight.

Section 8: EXPOSURE CONTROLS / PERSONAL PROTECTION

ALWAYS READ AND FOLLOW THE LABEL INSTRUCTIONS AND WARNINGS

National Exposure Standards: No exposure standard allocated

<table>
<thead>
<tr>
<th>Syngenta Exposure Standards:</th>
<th>Component</th>
<th>Exposure limit</th>
<th>Value type</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chlorantraniliprole</td>
<td>Total dust</td>
<td>10 mg/m³</td>
<td>8, 12 h TWA</td>
</tr>
<tr>
<td></td>
<td>Respirable dust</td>
<td>5 mg/m³</td>
<td></td>
</tr>
</tbody>
</table>

Biological Limit Values: No biological limit allocated

Engineering Controls: Ensure adequate ventilation, especially in confined areas

Personal Protective Equipment: No special personal protective equipment is required
Section 9: PHYSICAL AND CHEMICAL PROPERTIES

<table>
<thead>
<tr>
<th>Property</th>

</table>

Chlorantraniliprole technical has been extensively tested on laboratory mammals and in test tube systems. No evidence was obtained of mutagenic, carcinogenic, teratogenic or reproductive effects.
Section 12: ECOLOGICAL INFORMATION

Ecotoxicity:

Slightly toxic to fish  
Bluegill sunfish (*Leponis macrochirus*)  
LC<sub>50</sub> (96 hours) = >9.9 mg/L

Very highly toxic to aquatic invertebrates  
Water flea (*Daphnia magna*)  
EC<sub>50</sub> (48 hours) = 35 µg/L

Slightly toxic to algae  
Green algae (*Pseudokirchneriella subcapitata*)  
Er<sub>C50</sub> (72 hours) = >20 mg/L

Highly toxic to bees  
Bees (*Apis mellifera*)  
EC<sub>50</sub> (2 days) = >0.1 mg/kg (contact)  
= >0.1141 mg/kg (oral)

Persistence and Degradability:  
Chlorantraniliprole is not readily biodegradable

Mobility:  
Chlorantraniliprole has medium mobility in soil

Environmental Fate (Exposure):  
Chlorantraniliprole binds to soil

Bioaccumulative Potential:  
Chlorantraniliprole does not bioaccumulate

Section 13: DISPOSAL CONSIDERATIONS

Disposal Methods and Containers:  
Triple or preferably pressure rinse containers before disposal. Add rinsings to the spray tank. DO NOT dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush or puncture and deliver empty packaging to an approved waste management facility. If no facility is available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots, in compliance with Local, State or Territory government regulations. DO NOT burn empty containers or product.

Special Precautions for Landfill or Incineration:  
Not applicable

Section 14: TRANSPORT INFORMATION

**LAND TRANSPORT**  
Not a dangerous good in Australia

Section 15: REGULATORY INFORMATION

APVMA Product Number: 64594
Poisons Schedule (SUSDP): Exempt

Section 16: OTHER INFORMATION

Date of preparation or last revision: March 2013
Source of Data: The information provided in this SDS is sourced from Syngenta internal studies which have been conducted according to Regulatory requirements including OECD and CIPAC Guidelines and EC Directives. A comprehensive package of toxicological and environmental data for the active ingredients of this product has been submitted to the government health and environment authorities and has been evaluated by expert toxicologists and environmental scientists.

Note: This product is a registered agricultural chemical and must, therefore, be used in accordance with the container label directions

CONTACT POINT: Regulatory Affairs Manager, Syngenta Australia Pty Ltd (02) 8876 8444
24 HOURS EMERGENCY CONTACT: 1800 033 111

This Material Safety Data Sheet summarises our best knowledge of the health and safety hazard information of the product and how to safely handle and use the product in the workplace. Each user should read this SDS and consider the information in the context of how the product will be handled and used in the workplace including in conjunction with other products. If clarification or further information is needed to ensure that an appropriate risk assessment can be made, the user should contact this company.

DISCLAIMER
This product complies with the specifications in its statutory registration. Implied terms and warranties are excluded. Syngenta's liability for breach of the express or any non-excludable implied warranty is limited to product replacement or purchase price refund. The purchaser must determine suitability for intended purpose and take all proper precautions in the handling, storage and use of the product including those on the label and/or safety data sheet failing which Syngenta shall have no liability.
