FOCUS TERMITE ATTRACTANT

DIRECTIONS FOR USE

For Exterra In-ground Stations:

Pour Focus granules into the bottom of the hole prior to Station placement. Ensure granules contact moist soil. If necessary moisten soil with water.

Apply to all new installations.

Apply to existing Stations that have not shown termite activity.

Apply once per annum.

RECOMMENDED AMOUNTS

In-concrete Station - 3/4 scoop

Quarterra Station - 1 1/2 scoops
